The USFMEP is especially anticipating this important event because it captures the very essence of our organization: education as a means of promoting peace and harmony. President Sally Kader remarked, "The whole purpose of education is to turn mirrors into windows; we believe that we should educate the youth because they are our future leaders and our hope for a peaceful world. "It is imperative to teach them about The United Nation system and mission" The Federation aims to mobilize ordinary members of societies, particularly the women and youth of all regions of the world, to contribute to the establishment of a lasting peace in the world. The next generation of world leaders, our youth, are essential tools that can be used for effective peace efforts. This prominent event will be a step towards reaching an educated society where peace and harmony prevail to find solutions to international dilemmas. "I am very excited to be hosting this big event and I am sure it will be a great experience for all of us", Mrs. Sally Kader said.
